

# SUNDANCE

The sun warmed the earth  
and that's how it began

tiny tickle that makes volcanos  
and earthquakes  
and floods and hurricanes

looking each other from a distance

sweet love made out of light and warmth  
caresses the hot core  
from where the everlasting dance emerges

# IN THE EYES OF A CHALLENGE

*One must be cruel*

*one must be insane*

*having to gain  
is having to loose*

*the power of change has no mercy*

*move with motion, do it with love*

# THE IRONY OF LIFE

*The utter lesson.*

*Reminder of the obviousness.*

*The final help when everything fails.*

*Help oneself, love oneself.*

*The irony of life is death.*

# THE PROOF OF LOVE

*Let me meditate on that:*

*experience of love is always at your  
grasp,  
when you are at peace with yourself.*

# CONTEMPLATING ABOUT

*This and that  
me and us  
what is and isn't  
where and how*

*when*

*o, the possibility of creation  
that already happend and is happening*

# **THE NEED**

*Unwilling, unintentional  
concrete, feelingless*

**UNRESISTABLE  
DEVASTATING**

# **THE NEED TO CONTROL**

*Willing, intentional  
abstract, with feeling*

**UNRESISTABLE  
DEVASTATING**
